

# 183 Series

## Wide Format Solvent Inks

**NAZDAR**  
INK TECHNOLOGIES

## Mimaki™ JV, CJV150/300 Digital Printers using Mimaki BS3 Ink.

Nazdar® 183 Series Digital Imaging Inks are designed as a quality alternative to Mimaki BS3 original inks.

The primary features of these inks are as follows:

- Color matched to Mimaki BS3 ink, avoiding the need to profile in most situations.
- Reduced odor when compared to Mimaki BS3 ink.
- Convenient packaging options.
- Long term exterior performance with proven resistance to the effects of UV degradation and color fading.
- High impact, high intensity color equivalent to the original OEM ink set.
- Enhanced drying characteristics minimize the risk of "blocking".

### Substrates

Compatible with a wide range of self-adhesive flexible and pressure sensitive vinyl, banner, blue back paper and backed mesh.

### Packaging

All colors listed below are available in 600ml bags, 2 liter MBIS compatible bags\*\* and 1 liter bottles. Flushing solution is available in 220ml cartridges and 1 liter containers.
