

203 Series

Wide Format Solvent Inks

NAZDAR
INK TECHNOLOGIES

Roland™ Eco Max 3™ compatible printers

Nazdar® 203 Series Digital Imaging Inks are designed as a quality alternative to Roland Eco Max 3™ original inks

The primary features of these inks are as follows:

- Formulated to meet the regulatory targets achieved by Eco Max 3™
- Low odor formulation
- Color matched to Roland Eco Max 3™ inks, avoiding the need for custom profiles in most situations.
- Fully compatible with Eco Max 3™ inks, simply replace OEM ink with Nazdar 203 cartridge.
- High print speed capability.
- High impact, high intensity colors equivalent to the original OEM ink set.
- Consistent and reliable print performance.

Substrates

Compatible with a wide range of self supporting flexible and pressure sensitive vinyl, banner, blue back paper and backed mesh.
